NEW YORK

Thirty-first Annual Report

From January 1, 1902 to December 31, 1902

NEW YORK

1903

THE ROOSEVELT HOSPITAL

Occupies the block of ground between 58th and 59th streets and the 9th and 10th avenues, and has erected thereon suitable buildings, which furnish accommodations for about two hundred and forty-four patients. It was opened for the treatment of medical and surgical patients November 2, 1871. The Ambulance Service was established in 1878. The Out-Patient (Dispensary) Department was added in 1881. The Gynaecological Division was separated from the Medical in 1888. The McLane Operating Room, the gift of Dr. James W. McLane, in memory of James W. McLane, Jr., for the use of the Gynaecological service, was opened in 1890. The Wm. J. Syms Memorial Operating Theatre was erected in 1892, and the Private Patients' Pavilion in 1896. The Training School for Nurses was organized in 1896. The Accident Building was erected in 1898, providing in the first story for treatment of emergency and accident cases, and in the second story a Medical Ward (opened in February, 1899), known as The Abraham Jacobi Ward for Children—the beds in which (12) were endowed in memory of Ella May Clark, by her husband. A new Office Building for the Superintendent was constructed and occupied in 1901, and in the same year a Bureau of Information was established.

In 1902 new boilers of 600 horse-power replaced old boilers of less than half the capacity, and two Corliss Engines each of about 200 horse power capacity, and two 100-kilowatt Westinghouse electric generators, in place of old type engines and generators of much smaller capacity, were installed in a specially constructed building—all constituting a new Power Plant presented to the Hospital by Mrs. Jeanette Dwight Bliss, widow of the late George Theodore Bliss, in whose memory the plant was given, at a cost to the donor of more than \$50,000.00.

To erect, furnish and maintain the buildings, according to the plans adopted, will require additional money beyond the funds provided by Mr. Roosevelt's Will; and the Trustees solicit contributions for this purpose, and for the endowment of free beds.

A donation of five thousand dollars entitles the donor to nominate patients to a free bed in perpetuity; and a donation of three thousand dollars entitles the donor to nominate patients to a free bed for the life of the donor.

New York, January, 1903.

New York, January 27, 1903.

At a meeting of the Trustees of the Roosevelt Hospital, held this day, the following report of the Superintendent was presented and ordered to be printed.

W. EMLEN ROOSEVELT,
Secretary.

REPORT OF THE SUPERINTENDENT.

New York, January 1st, 1903.

TO THE BOARD OF TRUSTEES:—

Gentlemen:—I have the honor to present herewith the thirty-first annual report of the Hospital for the year ending December 31st, 1902.

The number of patients under treatment, 3,874, was 104 larger than during the previous year.

The daily average number of patients, 195, was 12 larger than in 1901.

The average length of stay of each ward patient was 19 days, as against $18\frac{1}{3}$ days for the previous year, and that of each private patient was $21\frac{1}{2}$ days, as against 20.

If to the daily average number of in-door patients, 195, is added the daily average number of patients treated in the Out-Patient Department, 193, and the daily average number of cases treated in the Emergency Department, 50, the daily average number of patients coming under the care of the Hospital was 438, as against 418 during the previous year.

The largest number of ward and private patients in any one day was 227, against 235 of the year before, and the smallest, 147, against 138.

The number of cases, 8,399, treated in the Emergency Department, but not detained for ward treatment, was 281 larger than in 1901, when the highest previous record was made for that service. The number of visits to that Department was 18,358.

AMBULANCE SERVICE.

Two automobile ambulances and one horse ambulance have barely sufficed for the accomplishment of the work of that Department; indeed, owing to the fact that the former have been often disabled, there have been times when it was necessary to temporarily decline calls and refer them to other Hospitals. The calls upon the ambulances, 5,407, were 223 less than for the former year, when the highest record was made since the establishment of the service. For efficient work the automobile vehicles should be renovated. Those in use here were built before the manufacture of electric vehicles had reached that stage of perfection which has since been attained. The use of the present vehicles has, moreover, been so hard that their making over would probably involve an expense of not less than \$2,000.00.

The cost of the ambulance service in 1902, \$3,285.11, was \$436.36 less than in 1901. The saving is probably due in large measure to the fact that it has been possible to make many of the needful repairs at the Hospital.

OUT-PATIENT DEPARTMENT.

The record of visits to the Out-Patient Department, 59,043, appearing in detail in another part of this report, shows an increase of 1,642 as compared with the previous year. There was an increase of 1,559 visits on the Medical, and 83 on the Surgical division. The number of patients treated was 154 larger than in the previous year. This exhibit is gratifying in view of the fact that the tendency, in the more important Dispensaries of the City, so far as known here, has been to a falling off in the number of patients. The work of the members of the Out-Patient Department Staff has been characterized by zeal and faithfulness.

CURRENT REPAIRS AND IMPROVEMENTS.

All the wards have undergone thorough renovation. The services of three painters and a carpenter, in the permanent employ of the Hospital, have been necessary to that end.

A notable addition has been the substitution of new boilers of more than 600 horse-power for old boilers of less than half the capacity, and the installation, in a specially constructed building, of two Corliss Engines, each of about 200 H. P. capacity, and two 100-kilowatt Westinghouse electric generators in place of the old type engines and generators, of much smaller capacity, formerly in use. This new equipment, which some one has alluded to as the "Heart and Lungs" of the Hospital, constitutes a power plant of which we may well be proud.

Its installation, without interruption to the work of the Institution, was attended with much difficulty, but since its accomplishment, the inconveniences which were caused by the work have been forgotten, and only gratitude is felt to the donor, Mrs. Jeanette Dwight Bliss, widow of the late George Theodore Bliss, in whose memory this efficient power plant has been constructed.

These improvements have involved an expenditure of more than \$50,000.00, and in commemoration of the gift a bronze tablet will be placed in the engine room.

Dr. McLane, the trustee who enjoys the distinction of being the medium of the gift, has devoted time and energy with untiring zeal to the perfect accomplishment of the work.

EXPENSES.

The sum expended for the current support of the Hospital, \$172,593.62, was \$13,928.32 larger than that of the previous year. \$19,493.73 should not be regarded as part of the cost of maintenance, for the reason that that sum was refunded to the expense account in the manner indicated below:—

Amount paid for special nurses, but returned to the Hospital by a charge to the private patients for whom the nurses were engaged	\$16,158.43
Amount accruing from sale of Hospital supplies to associated institutions, and of uniforms to nurses of the Training School, etc	3,335.30
	<hr/>
	\$19,493.73

Thus leaving the cost incurred for current support
of the Hospital and Out-Patient Department \$153,099.89

Estimating the cost of the Out-Patient Department at 10,000.00
we find that the actual expense for the main-
tenance of the Hospital proper was..... \$143,099.89
or \$1.98 $\frac{1}{3}$ per day per patient, a decrease of
2 $\frac{2}{3}$ cents over the preceding year.

The cost of maintaining the Syms Operating Building was \$7,436.05, most of which was met from the income provided by Mr. William J. Syms, through whose bequest that building was established.

The increased cost per capita for food, as compared with the previous year, was 3 $\frac{2}{3}$ cents, the expense of food for each inmate having been 37 cents, as against 33 $\frac{1}{3}$ cents the previous year. These figures represent the cost of food supplies before preparation.

BENEVOLENT WORK.

The number of patients treated in the wards without cost to the individual, during 1902, was 2,818, as against 2,879 the previous year. The number of ward patients was 3,479, as against 3,445. As only 661 paid for any part of their board, the percentage of entirely free patients was 81.

INCOME.

Under this head the following statement was made in the last annual report:—

“The Endowment Fund of the Hospital needs to be increased at least \$500,000.00 in order to properly care for the existing plant, and to conduct its work upon an efficient scale. Indeed, this enlarged endowment is now urgently required for the maintenance of the highest standard of excellence.”

No part of the sum mentioned has been received; not even was a single bed endowed during the year. Meantime the expenses of the Hospital, owing to the greater cost of nearly every commodity

in ordinary use, have materially increased. Happily the patronage of the Private Patients' Pavilion has been greater than during any year since its establishment, and that fact has increased the receipts, so that the annual deficit, for the current support of the Hospital, was only \$6,208.23, as against \$12,289.50 for the year 1901. Nevertheless, your Board has now for six successive years been confronted with a deficit ranging from \$4,455.93 to \$12,289.50, and the consequent need of increased endowment becomes annually more apparent.

It cannot be expected that the expenses of the Hospital will decrease with succeeding years. This is particularly due to the fact that more approved methods of medical and surgical work are employed, and the refinement of excellence is inevitably attended with increased cost.

It is not an unusual occurrence for the Superintendent to be asked why a new article may not be substituted for an old, and for him to be obliged to reply that the need is recognized, but that the expenditure has been avoided because of the necessity of economizing in every possible quarter.

GIFTS DURING 1902.

Through the Hospital Saturday and Sunday Association:

This Hospital's proportion of the undesignated

Contribution..... \$4,346.31

From Mr. W. L. Harkness

For Childrens Surgical Ward..... 250.00

From Miss Helen M. Gould

Newcomb..... 10.00

- Miss Katharine Lewis Hinsdale, 5th St., Lakewood, N. J., on behalf of the "Children of Hope Church Sunday School," stockings, slippers, dolls, toys, and books.
- Mrs. Wm. Milo Barnum, 19 West 51st St., toys and books.
- Miss Jacobi's School, 146 West 80th St., some gifts.
- Mrs. M. Hedges Washburn, Haverstraw-on-Hudson, N. Y., two dolls.
- Mrs. Olga Gluckman, 14 East 45th St., sundry articles for the children.
- Mrs. Marshall Perry Slade, 125 East 57th St., a case of oranges.
- Mrs. Theo. Obrig, a private patient, toys for the children.
- Miss Roberta Holden, provided decorations for Surgical ward for Women.
- Mrs. L. G. Huneker, a private patient, toys for the children and large cakes for Surgical Wards.
- Mrs. Walter Graeme Ladd, 15 West 54th St., potted plants, flowers and holly.
- Mr. Philip M. Lydig, Knickerbocker Club, two boxes of flowers
- Mr. M. C. D. Borden, 25 West 56th St., flowers.
- Mrs. William Arnold, 15 East 82nd St., flowers.
- Mr. S. Bayard Dod, New pennies to all the children.
- Mr. Geo. Ehret, 235 East 92nd St., a barrel of apples and a box of oranges.
- Dr. Abraham Jacobi, Regina Music Box to the Jacobi Ward.

Christmas was celebrated here with fervor and interest. The festival began on "Christmas Eve" when the "Tree," which had been placed in the Surgical Ward for Children during the day, was prettily lighted by electric lamps. Each child was generously remembered, and the occasion was one which will linger in memory when the pain attendant upon their stay in Hospital has long been forgotten. A Poet Laureate had prepared many surprises for Doctors and Nurses.

On Christmas morning a choir of singers, composed of pupils of the Training School, visited each Ward between six and seven o'clock and sang appropriate music. A private patient bore the expense of decorating the Surgical Ward for Women, and was taken there in an invalid chair to personally supervise the work.

Members of the Fifty-seventh Street Branch of the Y. M. C. A. decorated the Surgical Ward for Men, and on Christmas Day rendered appropriate music there, and in other Wards of the Hospital.

SUNDAY DIVERSION.

Beginning with July last, a weekly service of song has been held in the several Wards of the Hospital, under the auspices of the Y. M. C. A., Fifty-seventh Street Branch, Mrs. Franklin and Mr. E. J. Sisley having the arrangement of the programme and the direction of the singers on one Sunday, and Mr. Jas. Gray, Jr., Chairman of the Sick Committee of the same Branch, on alternate Sundays. This service of song has been much enjoyed and appreciated.

THE TRAINING SCHOOL.

The work of this Department grows in efficiency with each succeeding year. The fact is coming to be recognized that careful nursing is a most important adjunct to the work of the physician and surgeon. It is sometimes a matter of surprise that the number of applicants, of a satisfactory grade, is so small in a Hospital that presents such opportunities for observation and experience as the Roosevelt.

As it was related of old that, "many are called but few are chosen," so it may be said of our Training School that many apply but few are selected, because of so large a proportion of the applicants being below the requisite standard.

There are probably few avocations in life which afford so honorable and lucrative a means of support, after a comparatively short period of study, as the profession of nursing. True, the three years of training are not exempt from hardships; indeed, they involve much self sacrifice and diligent application, and the courage of some who begin the course fails before the goal is reached; still the list is growing of honorable examples of those who have been equal to the test and, having completed their period of training, are reaping the reward of their faithfulness, by a demand for their services for as large a portion of each year as their strength

is equal to; moreover, much of their lives is spent in the company of persons whom to serve is of itself a pleasure, to say nothing of the valuable emolument received.

The experiment of placing members of the Senior Class in charge of Wards has proved eminently satisfactory.

A demonstration of practical work, on the evening of March 12th, by members of the Graduating Class of the Training School, was followed, on the evening of March 14th, by a reception to their friends, when diplomas were presented to the Graduates by Mr. Charles C. Savage, President of the Board of Trustees.

Following are the names of the nurses who graduated on that evening, together with their present whereabouts:—

Miss Lotta Carll Johnston	Private Nurse, N. Y. City.
Miss Selma E. Connelly	“ “ “
Miss Mary Russell Hall	Head Nurse, Roosevelt Hospital, N. Y.
Miss Fanny C. Newlands	Private Nurse, N. Y. City
Miss Nellie Houston	Head Nurse, Syms Operating Building, Roosevelt Hospital.
Miss Caroline M. Hunter	Private Nurse, N. Y. City.
Miss Esther M. Reilly	Private Nurse, N. Y. City.
Miss Emma M. Shirreff	Private Nurse, N. Y. City.
Miss Mabel M. Brewster, now	Mrs. Wilcocks, Montreal, Canada.
Miss Grace B. Thornton	Private Nurse, N. Y. City.
Miss Florence N. Livingstone	“ “ “
Miss Grace Isabel Ames	“ “ “
Miss Grace A. Brewster	“ “ “
Miss Grace Arnold Knight	Head Nurse, Roosevelt Hospital, N. Y.
Miss Susie M. McGregor	Private Nurse, N. Y. City.
Miss Annetta M. Wright	“ “ “

- From "A Patient," Four Books for Library
- From Miss H. Roger, \$1.50 for Piano.
- From Miss Grace Thornton, \$2.00 for Piano.
- From Dr. James E. Newcomb, several valuable reference books; a copy of "American Journal of Nursing" for the year; a case of Materia Medica and specimens for Class Demonstration.
- From Don Giovanni del Drago, \$5.00.

The superintendent of the Hospital will always be glad to meet seekers after information, with a view to answering any questions, which he may, with reference to the existing needs of the Hospital, in order that its humane mission may be fulfilled.

Very respectfully.

Your obedient servant,

JAS. R. LATHROP,
Superintendent.

SUMMARY.

The number of patients remaining Dec. 31, 1901, was	186	
The number of patients admitted during the year was	3,688	3,874

--	-----

DEATH RATE.

The death rate from all causes, for the year, has been about 11¾ per cent.

Deducting from the number of deaths (435), 96 cases brought to the Hospital in a dying condition, the death rate would be about 8¾ per cent. against 9¼ in the preceding year.

INMATES.

House Officers.....	3
Medical staff.....	17
Average number of attendants, including special nurses.....	192
Average number of patients.....	195
	<hr/> 406

From the opening of the Hospital, Nov. 2, 1871, to Dec. 31, 1902, there have been treated in all 70,042 patients, of whom 11,024 have paid full or part board, and 59,018 were cared for gratuitously, thus making 84.2-7% of the whole number treated as free patients.

EXPENSES.

Cost per day per patient thus:

Hospital expenses in full	\$172,593 62 ÷ 72,136
the number of days of Hospital care	————— = \$2.39 ¾
From the above exhibit of Hospital expenses	\$172,593 62
there should be deducted the sum paid for services of special nurses, of which all was returned to the Hospital by a charge to the private patients for whom the nurses were engaged	\$16,158 43
Also amount accruing from sale of Hospital supplies to associated institutions, uniforms to Nurses of the Training School, etc	3,335 30
	<hr/>

Forward..... \$19,493 73—\$172,593 62

Brought forward.....	\$19,493 73—\$172,593 62
And the cost, approximated, of the Out-Patient Department.....	10,000 00= 29,493 72
Leaving net expenditure for current support of the Hospital proper.....	<u>\$143,099 89</u> ÷ 72,136
The number of days of Hospital care, as hereinbefore stated= \$1.98 $\frac{1}{4}$ as the net cost per day per patient.	
Of the 72,136 days of Hospital care, there were 9,516 days' maintenance of private patients and their friends (the latter numbering 1,077 days) and 62,620 days' maintenance of ward patients.	
Of the aforementioned Hospital Expenses, the cost of food per day for each inmate was 37 cents, thus: Total cost of food (before preparation).....	
	\$54,940 72 ÷ 148,190 (406x365)
The aggregate number of days' food furnished inmates=37 cents.	

Number of Prescriptions dispensed in Drug Department:

Surgical Div.	Medical Div.
31,628.....Hospital	20,316=51,944
10,309.....Out-Patient Department	<u>29,289=39,598</u>
	91,542

The following materials have been purchased during the year for the manufacture of bandages and surgical dressings:

Bleached Dressing Gauze.....	148,060 yards.
“ “ Mull.....	3,096 “
Unbleached Muslin.....	14,949 “

The following table presents a statement of the operations of the Out-Patient Department during the past year:

1902.	MEDICAL AND GYNÆCOLOGICAL			SURGICAL.		
	Number of New Patients.	Number of New and Old together.	Daily Average.	Number of New Patients.	Number of New and Old together.	Daily Average.
January.....	620	1,937	74	454	2,761	106
February	457	1,578	71	397	2,469	112
March	662	2,049	78	490	2,929	112

† Returned to the Hospital by a charge to private patients.

New York, January 27, 1903.

To the Board of Trustees:

Gentlemen:—I have the honor to transmit the following reports containing the statistics of the work done on the several divisions of the Hospital during the year 1902.

The number of patients treated in the

Medical Division.....	1,206
Jacobi (Children's Medical) Ward	215
Surgical Division	1,844
Gynæcological Division	609
	<hr/>
	3,874

The detailed statistics are appended.

Respectfully,

FRANK W. JACKSON,

Secretary of the Medical Board.

REPORT OF THE MEDICAL DIVISION.

PREPARED BY HOWARD CANNING TAYLOR, M.D.

During the year 1902 there were discharged from the medical division 1,150 cases, as follows:

Discharged well.....	460
Discharged improved.....	405
Discharged unimproved.....	98
Died.....	187

1,150

Of the 187 deaths 110 were males and 77 females. Forty-four cases were moribund on admission. A list of deaths is given on page 92.

REPORT OF THE JACOBI (CHILDREN'S MEDICAL) WARD.

PREPARED BY HOWARD CANNING TAYLOR, M.D.

During the year 1902 there were discharged from the Jacobi Ward 203 cases.

Discharged well.....	59
" improved.....	71
" unimproved	25
Died.....	48

203

There were 134 males and 69 females. A list of deaths is given on page 92.

The following table gives the disease, sex and condition at the time of discharge of the cases treated in the Jacobi Ward :

REPORT OF THE SURGICAL DIVISION.

The report of the surgical division for the year 1902 comprises the following three tables:

TABLE I.

PREPARED BY HOWARD CANNING TAYLOR, M.D.

This table contains all the cases discharged from the surgical wards during the year, arranged according to a regional classification under the subdivisions, injuries, diseases, tumors and congenital defects. The sex and condition at the time of discharge are given in the vertical columns.

Males, 1,165. Females, 587.

Number of cases discharged well	927
" " " improved	541
" " " unimproved	109
" " that died	175

Total number of cases1,752

Many cases discharged improved returned to the hospital for treatment and dressing, and were ultimately cured. The above enumeration represents the actual condition at the time of discharge, and not the ultimate result.

A list of deaths is given on page 92.

TABLE II.

PREPARED BY DRS. JOHN H. BLUE AND JAMES I. RUSSELL,
HOUSE SURGEONS.

Table No. 2 contains a list of all operations performed (other than minor emergency cases) in hospital during the year 1902. See Table III. for list of operations performed in Emergency Department.

Operations on Males	856
“ Females	463
Total.....	<u>1,319</u>

ANAESTHETICS.

Nitrous Oxide	5
Ether.....	231
Nitrous Oxide and Ether	835
Chloroform	176
Chloroform and Ether	27
Nitrous Oxide, Chloroform and Ether	21
Cocaine, Local.....	23
Cocaine, Local and Chloroform	1
No Anaesthetic	0
Total.....	<u>1,319</u>

Results: Discharged as Cured	841
“ Improved.....	291
“ Unimproved	20
Died	94
Remaining in Hospital	73
Total.....	<u>1,319</u>

TABLE OF OPERATIONS.

HEAD.		Male.	Female	Cured.	Improved.	Unimproved.	Died.	Remaining.
DIAGNOSIS.	OPERATION.							
SCALP.								
Haematoma.....	Aspiration.....	2	1	2	1			
Multiple Abscesses	Incision and Drainage....	1			1			
Lacerated Scalp Wounds...	Suture	5			5			
SKULL.								
Simple Linear Fracture of Vertex.....	Exploration		1		1			
Compound Depressed Fracture of Vertex.....	Elevation of Depression and Drainage.....	12	1	3	8		2	
Fracture of Base of Skull	Exploration	1	1	1		1		
Fracture of Base of Skull with Fracture of Ver- tex of Skull.....	Trephining of Vault	4		1			3	
Cerebral Hemorrhage	Trephining and Re- moval of Clot.....	1		1				
Empyema of Frontal Sinus	Incision and Drainage....	2		2				
Hydrocephalus.....	Drainage of Ventricle, Lateral.....		1				1	
BRAIN AND CRANIAL NERVES.								
Jacksonian Epilepsy.....	Osteoplastic Resection of Skull	2	1		1	1	1	
Injury to Skull with Con- vulsions.....	Exploration	1			1			
Subdural Hemorrhage.....	Osteoplastic Craniotomy with Drainage.....	1					1	
Supra-orbital Neuralgia....	Neurectomy.....		1		1			
Bullet Wound of Head, Penetrating.....	Trephining and Extrac- tion of Bullet.....		1					1
EAR AND MASTOID PRO- CESS.								
Keloid of Ear	Excision		1	1				
Chronic Otitis Media with Meningitis.....	Trephining and Drainage		1				1	
Mastoid Abscess	Stacke Operation.....	1			1			
EYE AND APPENDAGES.								
Epithelioma of Eyelid.....	Excision, Plastic.....		2	2				
Fibromata of Eyelid	Excision		2	1	1			
Wounds of Eye and Nose...	Enucleation of Eyeball...		1		1			

TABLE OF OPERATIONS—Continued.

HEAD--Continued.		Male.	Female.	Cured.	Improved.	Unimproved.	Died.	Remaining.
DIAGNOSIS.	OPERATION.							
FACE.								
Naevus of Brow	Excision		1	1				
Keloids of Face and Hands	Plastic.....	2			2			
Carcinoma	Excision of External Carotid Artery		2		2			
Epithelioma of Forehead..	Excision and Plastic	1			1			
Angio-sarcoma.....	Excision	1	1	1	1			
Sebaceous Cyst.....	Excision	1		1				
Tuberculous Sinus, Parotid Region	Curettage and Packing..		1		1			
Endothelioma of Parotid..	Excision	1	1	2				
Adeno-carcinoma of Parotid	Excision		1		1			
Necrosis of Floor of Orbit with Sinus.....	Excision of Sinus, Curettage and Drainage..			1				
Parotid Fistula.....	Internal Drainage.....	1	1	1				
NOSE.								
Deformity from Trauma..	Plastic Paraffin Injection	1	1		2			
Deformity from Trauma..	Plastic.....	3			3			
Necrosis of Septum, Syphilis	Plastic.....	1	1		2			
LIPS.								
Hare Lip.....	Plastic.....	3		2	1			
Hare Lip with Cleft Palate	Plastic on Lip	2			1		1	
Cleft Palate	Staphylorrhaphy		1	1				
Epithelioma	Excision with Plastic	3	1	4				
Angioma with Naevus of Face	Electrolysis with Actual Cautery (also).....		2		2			
MOUTH AND PHARYNX.								
Peri-alveolar Abscess.....	Incision and Drainage....	5	8	3	9			1
Epithelioma of Tongue....	Whitehead	3		3				
Epithelioma of Tongue ...	Double Dawbarn.....	1			1			
Epithelioma of Tongue ...	Kocher, Excision of Half of Tongue	1					1	
Epithelioma of Tongue....	Excision of Submaxillary Gland	1					1	
Epithelioma of Tongue and Floor of Mouth ...	Double Dawbarn	2			1		1	
Epithelioma of Tongue, Floor of Mouth, Tonsil, Palate	Double Dawbarn	1			1			

TABLE OF OPERATIONS—Continued.

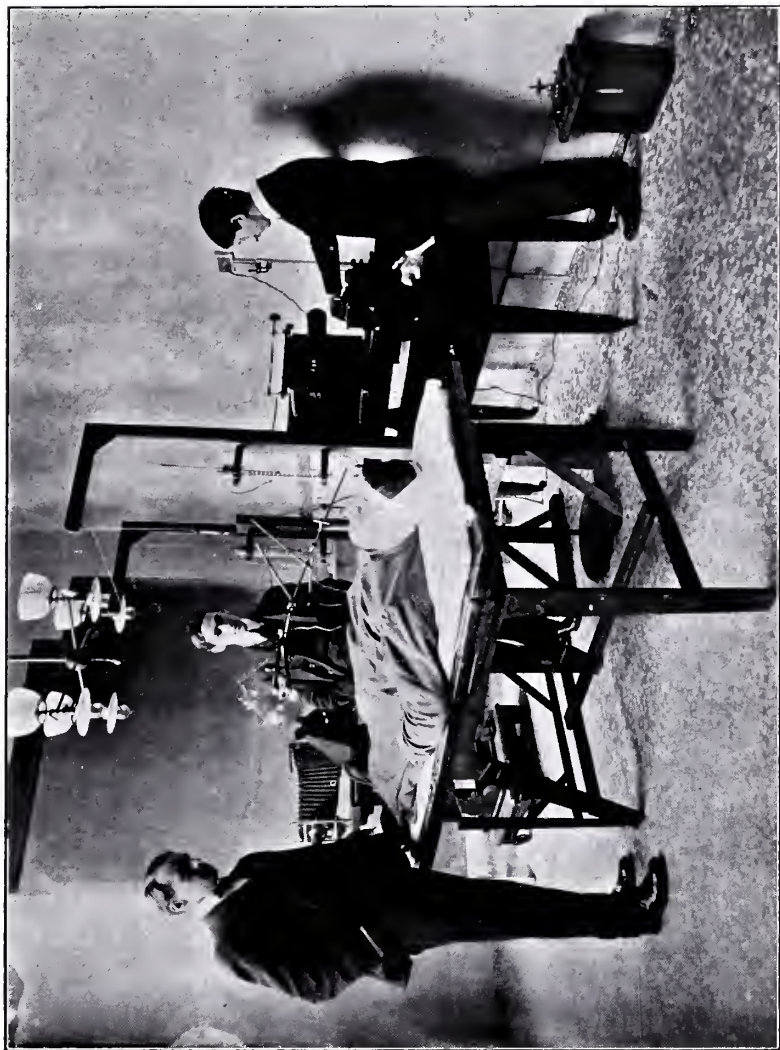

HEAD—Continued.		Male.	Female.	Cured.	Improved.	Unimproved.	Died.	Remaining.
DIAGNOSIS.	OPERATION.							
MOUTH AND PHARYNX—Continued.								
Epithelioma of Soft Palate.....	Excision	1		1				
Carcinoma of Tonsil	Double Dawbarn and Removal of Glands.....	1			1			
Sarcoma of Vault of Pharynx.....	Excision	1		1				
Adenoids	Extirpation.....	2	2	4				
MAXILLAE.								
Sarcoma of Superior Maxilla.....	Excision of Jaw.....		3	1	1			1
Necrosis of Superior Maxilla.....	Sequestrotomy.....	1	4		4			1
Abscess of Antrum	Incision and Drainage.....	2			2			
Sarcoma of Inferior Maxilla.....	Excision of Jaw.....	1	2	3				
Necrosis of Inferior Maxilla.....	Sequestrotomy.....	6	3	5	3			1
Ankylosis of Jaw	Manipulation	1			1			
Depressed Fracture of Malar	Elevation through Antrum.....	1		2				
Necrosis of Malar	Sequestrotomy.....	1			1			
Sub-maxillary Calculi.....	Excision of Gland.....	1			1			
Epithelioma of Submaxillary Gland	Excision of Gland.....	1			1			
Epithelioma of Inferior Maxilla.....	Excision of Jaw with Tracheotomy	1					1	
LARYNX.								
Epithelioma	Partial Laryngotomy....	1					1	
Epithelioma	Thyrotomy with Tracheotomy.....		1				1	
Laryngeal Dyspnoea, Paralysis.....	Tracheotomy		1		1			
THYROID GLAND.								
Cystic.....	Enucleation of Cyst	1	2	3				
Cystic.....	Hemi-thyroidectomy.....			2	2			
Calcifying Goitre	“	1		1				
Interstitial Thyroiditis.....	“	1	3	2			1	1
Cyst-adenoma.....	“		1	1				

TABLE OF OPERATIONS—Continued.

NECK.		Male.	Female.	Cured.	Improved.	Unimproved.	Died.	Remaining.
DIAGNOSIS.	OPERATION.							
Tuberculous Adenitis	Excision	18	14	23	8			1
Tuberculous Adenitis	Incision and Drainage....	9	11	5	13	2		
Anthrax	Excision	1			1			
Lipoma	"	1		1				
Thyro-glossal Cyst	"		1	1				
Branchial Cyst	"	1		1				
Sebaceous Cyst	"	1		1				
Ludwig's Angina	Tracheotomy	1					1	
Epitheliomatous Glands....	Excision	4			4			
Sarcoma	"	3		3				
Sub-lingual Tumor	"	1		1				
Cellulitis	Incision and Drainage....	2	1		3			
Tumor of Carotid Artery ..	Exploratory Incision.....	1				1		
THORAX.								
WALL.								
Necrosis of Rib	Incision and Drainage....	7	2	4	5			
Syphilitic Osteomyelitis of								
Ribs.....	Excision of Ribs	1			1			
Bullet Wound.....	Exploration	1			1			
PLEURA AND LUNGS.								
Stab Wound.....	Exploration	1		1				
Hemo-thorax, Fracture of								
Ribs.....	Aspiration.....	1			1			
Empyema.....	Thoracotomy.....	5	3	4	1	1	2	
Empyema.....	Thoracoplasty	2		1		1		
Sub-phrenic Abscess.....	Incision and Drainage....	2		1		1		
Pyo-pneumo-pericarditis..	Thoracoplasty and Drain-							
	age of Pericardium.....	1				1		
BREAST.								
Cysts.....	Excision		1	1				
Carcinoma	Excision of Tumor		1		1			
Carcinoma	Halstead	22	21		1			
Fibro-adenoma	Excision		8	8				
Sarcoma.....	Halstead		1	1				
Tuberculosis.....	Excision of Growth.....		1	1				
Suppurative Mastitis.....	Incision and Drainage....	1	5	5	1			
Lipoma of Breast and Axilla	Excision		1	1				
OESOPHAGUS.								
Foreign Body	External Oesophagotomy	2		2				
Stricture, Simple.....	Abbe String Method.....	1			1			
Stricture, Malignant.....	Gastrostomy.....	1					1	

TABLE OF OPERATIONS--Continued.

THORAX--Continued.		Male.	Female.	Cured	Improved.	Unimproved.	Died.	Remaining.
DIAGNOSIS.	OPERATION.							
OESOPHAGUS--Continued.								
Stricture, Doubtful	Gastrostomy and Dilation	1	1	1	1			
ABDOMEN.								
WALL.								
Gunshot Wound, No Visceral Injury.....	Exploratory Laparotomy	3		3				
Stab Wound, No Visceral Injury	Exploratory Laparotomy	2	1	2			1	
Gunshot Wound Penetrating Liver	Laparotomy and Packing of Wound of Liver.	1		1				
Gunshot Wound of Abdomen, Axilla, Arm, Forearm	Exploratory Laparotomy	1		1				
Sinus	Excision	3			2		1	
Abscess.....	Incision and Drainage...	1	1	1	1			
Granulating Wound.....	Plastic.....			2	2			
Foreign Body	Excision	1	1	2				
STOMACH.								
Carcinoma of Pylorus.....	Gastro-enterostomy.....	1	2		3			
Carcinoma of Stomach ...	Gastrostomy.....		1				1	
Carcinoma of Stomach ...	Exploratory Laparotomy	1	2		1	2		
Pyloric Stenosis.....	Gastro-enterostomy.....		2	1			1	
Perforating Ulcer with General Peritonitis.....	Gastrorrhaphy with Drainage	1	1	1			1	
Chronic Ulcer with Hour Glass Contraction	Gastro-enterostomy.....		2	1	1			
Gastritis.....	Exploratory Laparotomy	1			1			
Stab Wound.....	Gastrorrhaphy.....	1		1				
PERITONEUM.								
Tuberculous Peritonitis....	Incision, Irrigation, Closure.....	2	1		1	1	1	
General Peritonitis, Typhoid Perforation.....	Laparotomy, Enterorrhaphy and Drainage..	1					1	

X Ray Treatment.

TABLE OF OPERATIONS—Continued.

ABDOMEN—Continued.		Male.	Female.	Cured.	Improved.	Unimproved.	Died.	Remaining.
DIAGNOSIS.	OPERATION.							
PERITONEUM—Continued.								
General Peritonitis, Rupture of Intestine	Laparotomy, Enterorhaphy and Drainage..	1					1	
General Peritonitis, following Intestinal Obstruction	Hysterectomy, Salpingectomy and Drainage.		1				1	
General Peritonitis of Unknown Origin	Exploratory Laparotomy		1				1	
Retroperitoneal Abscess ..	Incision and Drainage.....	1	1	2				
LIVER AND GALL BLADDER.								
Rupture of Liver	Laparotomy and Packing	1					1	
Rupture of Liver and Spleen.....	Laparotomy and Packing	1					1	
Abscess of Liver	Laparotomy and Drainage	1	1				2	
Cholangitis, Suppurative..	Laparotomy and Drainage	1					1	
Hypertrophic Cirrhosis ...	Exploratory Laparotomy	1					1	
Cholelithiasis, Gall Bladder.....	Cholecystostomy		2	2				
Cholelithiasis, Cystic Duct Stone.....	Cholecystostomy		5	3				2
Cholelithiasis, Cystic Duct Stone.....	Cholecystostomy		5	4				1
Cholelithiasis, Common Duct Stone.....	Cholecystostomy, Cholecocotomy.....	2	1	1			1	1
Cholelithiasis?	Exploratory Laparotomy		1					1
Fistula of Gall Bladder ...	Cholecystectomy.....		1	1				
Peri-cholecystitis.....	Laparotomy and Separation of Adhesions....		1		1			
Hydated Cyst of Liver.....	Laparotomy and Enucleation	1		1				
PANCREAS.								
Acute Pancreatitis with Appendicitis	Appendicectomy with Drainage	1		1				
Carcinoma of Pancreas.....	Cholecyst-Enterostomy.	1					1	

TABLE OF OPERATIONS—Continued.

ABDOMEN—Continued.		Male.	Female.	Cured.	Improved.	Unimproved.	Died.	Remaining.

INTESTINES.								
Obstruction, Acute	Lateral Anastomosis.....	1	1				2	
Obstruction, Acute.....	Artificial Anus	1					1	
Obstruction, Acute, Vol- vulus.....	Volvulus Untwisted.....	1						1
Obstruction, Chronic, Can- cer of Colon.....	Exploratory Laparotomy		1		1			
Chronic Obstruction Due to Carcinoma of Splenic Flexure of Colon.....	Resection of Growth.....	1					1	
Carcinoma of Sigmoid ...	Inguinal Colostomy	1			1			
Carcinoma of Sigmoid and Bladder.....	Inguinal Colostomy		1		1			
Sarcoma of Colon	Resection of Growth.....	1					1	
Tuberculosis of Caecum ...	Resection of Caecum		1	1				
Chronic Colitis	Inguinal Colostomy	2		1	1			
Perforation of Intestine (Bullet)	Enterorrhaphy.....	2		2				
Perforation of Intestine following Typhoid	Enterorrhaphy.....	1	1	1			1	
Perforation of Intestine?..	Exploratory Laparo- tomy		1				1	
Perforating Ulcer of Du- odenum	Enterorrhaphy and Drainage.....	1		1				
Rupture of Mesentery.....	Laparotomy and Liga- ture	1		1				
Intestinal Colic.....	Exploratory Laparo- tomy	1			1			
Adenoma of Duodenum....	Excision of Growth		1					1
Acute Obstruction Due to Appendix.....	Appendicectomy.....		1	1				
Artificial Anus	Closure.....	1	1	1			1	
Flexure of Colon	Resection of Growth	1					1	
SPLEEN.								
Bullet Wound.....	Splenectomy.....	1						1
APPENDIX.								
Acute Catarrhal Appen- dicitis	Appendicectomy	7	13	20				
Acute Appendicitis with Spreading Peritonitis ...	Appendicectomy, No Drainage	6	4	8	1			1

TABLE OF OPERATIONS—Continued.

ABDOMEN—Continued.		Male.	Female.	Cured.	Improved.	Unimproved.	Died.	Remaining.
DIAGNOSIS.	OPERATION.							
APPENDIX—Continued.								
Acute Appendicitis with Spreading Peritonitis....	Appendicectomy Drainage	5	2	2			5	
Acute Appendicitis with Abscess.....	Appendicectomy with Drainage	37	16	44	1		6	2
Gangrenous Appendicitis with General Peritonitis	Appendicectomy with Drainage	7		3			4	
Chronic Appendicitis	Appendicectomy.....	13	22	35				
Recurrent Appendicitis	Appendicectomy.....	19	18	36				1
Chronic Appendicitis with Ovarian Cyst, Twisted Pedicle.....	Salpingo-oophorectomy..		1	1				
Chronic Appendicitis with Ovarian Cyst.....	Appendicectomy and Salpingo-oophorectomy.....		3	1	2			
Chronic Appendicitis with Fistula	Appendicectomy and Closure of Fistula	2		2				
Chronic Appendicitis with Femoral Hernia.....	Appendicectomy and Herniotomy		1	1				
Chronic Appendicitis with Salpingitis and Retroversion of Uterus	Appendicectomy, Salpingectomy, Ventral Suspension		1	1				
Tuberculosis of Appendix and Caecum.....	Excision of Appendix and Caecum.....	1	1	1			1	
Adhesions about Appendix	Laparotomy and Separation of Adhesions....		1		1			
HERNIA.								
Inguinal, Single, Indirect Reducible.....	Bassini	70	7	73				4
Inguinal, Single, Direct Reducible.....	Bassini		1	1				
Inguinal, Indirect Reducible, Single	Radical Cure. Cord not Transplanted.....	18		18				
Inguinal, Recurrent	Bassini	2		2				

TABLE OF OPERATIONS—Continued.

ABDOMEN—Continued.		Male.	Female.	Cured.	Improved.	Unimproved.	Died.	Remaining.
DIAGNOSIS.	OPERATION.							
HERNIA—Continued.								
Inguinal, Double.....	Bassini	2		2				
Inguinal, Double.....	Radical Cure, Cord not Transplanted	2		2				
Inguinal, Single, Indirect, Reducible.....	Bloodgood, Modification of Bassini.....	7		7				
Inguinal, with Cryptorchismus	Radical Cure.....	2		2				
Inguinal, with Hydrocele of Canal of Nuck....	Radical Cure.....		2	2				
Inguinal with Inguinal Adenites	Radical Cure with Excision of Glands	1			1			
Inguinal, Congenital.....	Bassini	3		3				
Inguinal, Incarcerated.....	Bassini	1		1				
Inguinal, Strangulated.....	Bassini	2	1	2				1
Femoral, Reducible.....	Coley.....	5	5	10				
Femoral, Strangulated.....	Coley.....	1	4	3				2
Femoral, Strangulated.....	Coley with Laparotomy		2	2				
Femoral with Salpingitis, and Peritonitis	Radical Cure. Salpingectomy		1				1	
Femoral with Inguinal Hernia.....	Gordon Operation	1		1				
Ventral.....	Herneotomy.....	1	5	5				1
Umbilical.....	Lapping Operation.....	9	8	14			1	2
Umbilical, Strangulated ..	Herniotomy		2					2
Inguinal, Strangulated.....	Colostomy	2		1			1	
RECTUM AND ANUS.								
Hemorrhoids, External ...	Incision and Packing	1		1				
Hemorrhoids, Internal ...	Clamp and Cautery	14	10	23				1
Hemorrhoids, External and Internal	Ligature.....	10	5	15				
Hemorrhoids, External and Internal	Clamp and Cautery	17	5	20				2

Treatment Room of the Emergency Department

JAMES W. McLANE JR.
1890

McLane Operating Room for the Gynaecological Service.

TABLE I.

PREPARED BY WILLIAM P. HEALY, M.D., HOUSE GYNAECOLOGIST.

This table contains all cases treated in the gynaecological division during the year 1902, and is arranged according to the region involved. The condition at the time of discharge is indicated in the vertical columns.

The total number of cases treated was 587, with results as follows:

Discharged Cured	253
" Improved	268
" Unimproved	41
Died.....	25
Total.....	587

TABLE OF DISEASES.

DIAGNOSIS.	Cured.	Improved.	Unimproved.	Died.	Total.
VULVA.					
Bartholinian Abscess.....	4	3	1		8
" " (Double).....	2				2
Gonorrhoeal Vulvitis, Condylomata		2			2
Chancroidal Ulcerations.....		1	1		2
Herpes Progenitalis.....	1				1
Obturator Hymen	1				1
VAGINA.					
Senile Vaginitis.....		1			1
Abscess Posterior Vaginal Wall, Fistula in Ano	1				1
Inclusion Cyst Posterior Vaginal Wall	1				1
Abscess of Gartner's Duct.....	1				1
Moderate Prolapse Anterior and Posterior Vaginal Walls		1			1
Cystocele.....		1			1
URINARY SYSTEM.					
Cystitis		3			3
Vesico-vaginal Fistula	1		1		2
Sarcoma of Bladder		1	1		2
Urethral Caruncle.....	1				1

TABLE OF DISEASES—Continued.

DIAGNOSIS.	Cured.	Improved.	Unimproved.	Died.	Total.

TABLE II.

PREPARED BY WILLIAM P. HEALY, M.D., HOUSE GYNAECOLOGIST.

This table contains all operations performed in the Gynaecological Division during the year 1902.

There were 446 patients on whom operations were performed, several being operated on more than once thus bringing the total of operations up to 450 with results as follows:

Discharged cured	277
" improved.....	131
" unimproved	10
Died.....	20
Remaining in Hospital.....	12
	<hr/> 450

TABLE OF OPERATIONS.

VULVA.		Cured.	Improved.	Unimproved.	Died.	Remaining.	Total.
DIAGNOSIS.	OPERATION.						
Obturator Hymen	Hymenectomy.....	1					1
Chancroids.....	Cauterization.....		1				1
Gonorrhoeal Condylomata	Excision	2					2
Bartholinian Abscess.....	Excision	5					5
Double Bartholino-rectal Fistulae.....	Excision		1				1
Laceration of Fourchette	Suture	1					1
URINARY SYSTEM.							
Vesico-vaginal Fistula....	Excision	1					1
Urethral Caruncle.....	Excision	1					1
Sarcoma of Bladder	Removal by Morcellation..		1				1
VAGINA.							
Cystocele.....	Anterior Colporrhaphy	2	3				5
Abscess Posterior Vaginal Wall	Excision	2					2
Ulcer Vaginal Wall	Excision		1				1
Abscess of Gartner's Duct	Excision	1					1

TABLE OF OPERATIONS—Continued.

CERVIX.		Cured.	Improved.	Unimproved.	Died.	Remaining.	Total.
DIAGNOSIS.	OPERATION.	—	—	—	—	—	—
Dysmenorrhoea (Stenosis External Os).....	Dilatation and Curettage		2				2
Dysmenorrhoea (Stenosis External Os).....	Dilatation and Curettage and Stem Pessary		13				13
Mucous Polypus	Excision	2					2
Cervical Polypus.....	Avulsion.....		1				1
Fibroid of Cervix	Myomectomy (Vaginal) ..	1					1
Fibroid Cervix (Sloughing).....	Vaginal Hysterectomy	1					1
Laceration of Cervix (Endometritis).....	Amputation of Cervix—Curettage.....	10	6		1	1	18
Laceration of Cervix (Endometritis).....	Bilateral Trachelorrhaphy—Curettage.....	24	11			1	36
Laceration of Cervix (Endometritis).....	Unilateral Trachelorrhaphy—Curettage.....	7	2			1	10
PERINEUM.							
Lacerated Perineum	Perineorrhaphy (Hegar) ..	24	5			1	30
Fistula in Ano.....	Excision	2					2
Lacerated Sphincter Ani	Proctoplasty.....	1					1
UTERUS.							
Endometritis.....	Curettage.....	4	17	1			22
Retained Secundines	Curettage.....	12	1				13
Incomplete Abortion.....	Curettage.....	35	9		1	2	47
Endometritis	Curettage (Stem Pessary)		6				6
Endometritis	Curettage and Excision Piece of Cervix for Diagnosis.....		2				2
Endometritis	Curettage and Excision Hypertrophied Tissue about External Os.....		1				1
Endometritis	Examination under Ether			1			1
MALPOSITIONS.							
*Prolapse of Uterus (Complete).....	Amputation of Cervix, Anterior Colporrhaphy, Perineorrhaphy, Ventral Fixation	1		1			2

* Curettage.

TABLE OF OPERATIONS—Continued.

UTERUS—Continued.		Cured.	Improved.	Unimproved.	Died.	Remaining.	Total.
DIAGNOSIS.	OPERATION.	—	—	—	—	—	—
MALPOSITIONS—Continued.							
*Prolapse of Uterus (Complete)	Anterior Colporrhaphy, Perineorrhaphy, Ventral Suspension.....	2				1	3
*Prolapse of Uterus (Complete)	Amputation of Cervix, Perineorrhaphy, Ventral Suspension.....	4				1	5
*Prolapse of Uterus (Complete)	Unilateral Trachelorrhaphy, Perineorrhaphy, Ventral Suspension	1	1				2
*Prolapse of Uterus (Complete)	Bilateral Trachelorrhaphy, Perineorrhaphy, Ventral Suspension.....	1					1
Post-partum Inversion (Complete)	Vaginal Hysterectomy.....	1					
Retroversion	Curettage, Pessary.....		5				5
Retroversion-Adherent....	Curettage, Ventral Suspension.....	9	1				10
Retroversion-Adherent....	Curettage.....		2				2
Retroversion and Hyperplastic Endometritis	Vaginal Hysterectomy....	1					
NEOPLASMS.							
Fibromyoma Submucous.....	Curettage.....	2	6				8
Fibromyoma, Pedunculated, Submucous.....	Avulsion.....	4					4
Fibromyoma.....	Myomectomy	3					3
Fibromyoma.....	Vaginal Hysterectomy.....	3	1				4
Fibromyoma.....	Supravaginal Hysterectomy	12	1		3	1	17
Fibromyoma.....	Abdominal Complete Hysterectomy	4			2	1	7
Carcinoma of Cervix.....	Examination under Ether Inoperable.....			1			1
Carcinoma of Cervix.....	Curettage.....		2				2
“ “	Excision, Cauterization....		1		1		2

* Curettage was done in each case.

TABLE OF OPERATIONS—Continued.

UTERUS—Continued.

REPORT OF THE PATHOLOGICAL DEPARTMENT.

PREPARED BY A. JEROME LARTIGAU, M. D., ASSISTANT PATHOLOGIST.

During the year 1902, 169 autopsies were performed. These may be classified as follows :

NERVOUS SYSTEM.

Fracture of Skull and Cerebral Hemorrhage	11
Apoplexy	8
Tuberculous Meningitis.....	7
Non do do	4
Amytrophic Lateral Sclerosis.....	1
Sarcoma of Brain.....	1

VASCULAR SYSTEM.

Acute Endocarditis.....	9
Chronic Endocarditis.....	23
Aneurysm of Aorta.....	2
Thrombosis of Aorta.....	1
Pyopneumopericardium.....	1

RESPIRATORY SYSTEM.

Acute Lobar Pneumonia.....	27
Acute Broncho-pneumonia.....	9
Pulmonary Tuberculosis.....	13

ALIMENTARY SYSTEM.

Carcinoma of Stomach.....	1
Ulcer of Stomach.....	1
Entero-colitis.....	5
Appendicitis	1
Cirrhosis of Liver.....	9
Typhoid Fever.....	7

GENITO-URINARY SYSTEM

Chronic Diffuse Nephritis	23
Pyelonephrosis	1
Carcinoma of Uterus.....	1
Carcinoma of Bladder.....	1

UNCLASSIFIED

Addison's Disease.....	1
Diabetes.....	1
Tuberculous Peritonitis.....	1

REPORT OF PATHOLOGICAL DEPARTMENT—Continued.

The number of specimens received for diagnosis from the Surgical and Gynaecological Divisions was 403. They may be tabulated as follows:

TUMORS,—

Angioma.....	2
Branchiogenetic Cyst.....	1
Carcinoma Colon.....	2
Carcinoma Lymph Nodes (Recurrent).....	31
Carcinoma Neck.....	2
Carcinoma Rectum.....	5
Carcinoma Tongue.....	9
Carcinoma Uterus.....	18
Dermoids.....	2
Fibroma.....	29
Lipoma.....	3
Sarcoma.....	40
Spina Bifida.....	1
Papilloma.....	2

GENITO-URINARY SYSTEM.

Endometritis.....	59
Oophoritis.....	16
Pyosalpinx.....	20

BONES and JOINTS.

Simple Osteitis.....	11
Tuberculous Osteitis.....	8

GASTRO-INTESTINAL SYSTEM.

Appendicitis.....	29
Hernia.....	3
Cholecystitis.....	2

LYMPH NODES.

Lymphadenitis, Simple Hyperplasia.....	15
Lymphadenitis Tuberculous.....	24

UNCLASSIFIED.

Hemorrhoids.....	5
Inflammatory Hyperplasia.....	64

The report covers a portion only of the examinations made by this department. In addition to the work in pathological anatomy, the department has also carried on the bacteriological side of the hospital work.

EXTRACTS FROM THE BY-LAWS.

I. THE ADMISSION OF PATIENTS.

1. Patients suffering from severe accidents or serious illness shall be admitted to the Hospital at any hour of the day or night.

2. Other patients shall be admitted between 9 o'clock A. M. and 5 o'clock P. M. They must apply in person at the office of the Hospital, when they will be examined and passed for admission by the House Physician, Surgeon, or Gynæcologist on duty; or, if unable to apply in person, they shall be visited at their homes by the House Physician, Surgeon, or Gynæcologist on duty, or one of their assistants.

3. Any member of the Medical Board may send to the wards of the Hospital such patients as he sees fit, giving them a special order for admission, subject to the regulations of the Hospital.

4. No patient suffering under any contagious disease shall be admitted, except such cases of emergency as require immediate attention; and such cases so admitted shall be placed in the isolating room only.

5. There shall be posted in the office daily the number of occupied beds in each ward.

6. Application for the admission of patients living out of the city must be addressed to the Superintendent of the Hospital and accompanied by a certificate of some respectable physician, stating the nature and probable duration of the disease.

II. RULES FOR PATIENTS.

1. Patients admitted to the Hospital are forbidden to use profane or indecent language ; to express immoral or infidel sentiments ; to play at any game for money ; to smoke tobacco in the house, or to procure for themselves or others any intoxicating liquors.

2. No patient shall be allowed to have any book, pamphlet or newspaper of an immoral or indecent nature.

3. No male patient shall go into any of the women's wards nor any female patient into any of the men's wards.

4. No patients shall enter the dead-house, engine-rooms, kitchen, theatre, or any of the attendants' rooms, except by order of the Superintendent or other officer of the house.

5. No patient shall leave the house without permission of the Superintendent. When desiring to go beyond the Hospital bounds, patients must obtain a card from the House Physician, Surgeon or Gynæcologist, at his morning round, stating that he has no objections, which card, when countersigned by the Superintendent, will serve them as a pass, and will be good for the day upon which it is given, but must be surrendered to the doorkeeper when the patient goes out.

6. Patients admitted to the Hospital must leave with the Superintendent for safekeeping, and for which a receipt will be given, any money or other valuables they may have ; and in case of their failure to do so, the Hospital will not be responsible for any loss which may occur.

7. No patient may purchase, or procure any attendant to purchase for him, any articles whatever without permission of the Superintendent.

No member of the House Staff, Nurse or other employee shall receive any compensation, gift or bequest from any patient, unless authorized to do so by the Visiting Committee. Any infraction of this rule makes the employee liable to immediate dismissal.

All complaints should be made to the Superintendent.

REGULATIONS FOR VISITORS.

VISITING DAYS.

The regular visiting days at this Hospital are Sundays, Wednesdays, and Fridays, and the hours from 1 to 3 o'clock in the afternoon.

Not more than two persons will be allowed to visit a patient on the same day.

In cases of alarming illness, of which due notice will always, if practicable, be given to the immediate relatives or friends of a patient, visits will not be restricted to the regular days or hours.

Visitors will not remain with patients beyond the visiting hour, and must not converse with any patient who is not a relative or near friend.

The nurses and orderlies will see that these rules, which are adopted for the good of the patients, are closely observed. They apply alike to visitors to both men and women patients.

All visitors are requested to leave when the bell rings, at the expiration of the visiting hour.

Visitors are prohibited from taking anything to eat or drink into the wards. All such must be left with the doorkeeper, marked with the name of the patient for whom they are intended. After the visiting hour they will be examined by a medical officer, and if found unobjectionable will be sent to the patients as directed.

DIETARY FOR PATIENTS.

FULL DIET.

DAILY.—Meat dressed, 8 oz. ; potatoes, 8 oz. ; bread, 12 oz. ; butter, 1 oz. ; sugar, 2½ oz. ; milk, ½ pint ; coffee, ½ oz. ; tea, ½ oz. On Sundays, Tuesdays and Thursdays other vegetables in addition to potatoes, 2 oz. ; bread, rice or tapioca pudding. On Mondays and Wednesdays, soup, 1 pint. On Fridays, fish.

MILK DIET.

DAILY.—Milk, 2 pints ; bread, 12 oz. ; rice or samp, 2 oz. ; butter, 1 oz.

EXTRAS.

Selection may be made from the following articles of special diet when it is deemed necessary by the Senior Physician on duty. This order may *not* be a standing one, but must appear *daily over the physician's signature* in book entitled "*Physician's Orders.*"

Beef-steak.

Beef-tea.

Mutton chops.

Chicken.

Chicken soup.

Oysters or Clams.

Milk.

Eggs.

Gruel.

Corn Starch.

Rice.

LECTURE COURSE.

JUNIOR CLASS.

1902-1903.

Anatomy—Eight Lectures, Dr. Carleton P. Flint.
Bones and Joints, Muscles, Arteries, Veins and Lymphatics, Nerves,
Vision, Eye, Ear, Nose, Throat and Mouth.

Physiology—Four Lectures, Dr. Walton Martin.
Blood and Circulation, Respiration, Digestion, Elimination, The Nervous
System.

Outlines of Bacteriology and Hygiene—Three Lectures, Dr. August J. Lartigau.

Medical Nursing—Four Lectures, Dr. Jas. E. Newcomb.
General care of Patients. Temperature, Pulse, Respiration, Medical
Emergencies, How and What to Observe Accurately, Nursing in Con-
tinued Fevers.

Surgical Nursing—Three Lectures, Dr. Adrian Lambert.
Principles of Modern Surgery, Asepsis and Antisepsis, Inflammation and
care of Wounds. Sterilization of Hands, Instruments, etc. Care of
Patient Before, During and After Operation, with possible emergencies.

INTERMEDIATE CLASS.

1902-1903.

Germ Theory of Disease, Operating Room Technic—One Lecture.
Dr. Geo. E. Brewer.

Anæsthetics and Surgical Emergencies—Two Lectures, Dr. Percy R. Turnure.

Gynæcology—Two Lectures, Dr. Howard C. Taylor.
Preparation and care of Abdominal Cases. Preparation for Operation in
Private duty.

Diseases of the Digestive Organs—Three Lectures, . . Dr. Ernest V. Hubbard.
Applied Physiology of Alimentary Canal; Diseases of Stomach and Intes-
tines, use of Stomach and Rectal Tube, Enteroclysis, etc.

Diseases of the Respiratory and Circulatory Systems—Two Lectures.

Dr. Evan M. Evans.

Infant Feeding—One Lecture, Dr. Abraham Jacobi.

Urinalysis—Practical Demonstration (given to class in sections),

Dr. August J. Lartigau.

Poisons and their Antidotes—One Lecture, . . . Dr. Ernest V. Hubbard.

SENIOR CLASS.

1902-1903.

Nursing in Diseases of the Nose and Throat and Ear—One Lecture,

Dr. James E. Newcomb.

Nursing in Diseases of the Eye—One Lecture, . . . Dr. Chas. H. May.

Care of Nervous Diseases and Rest Cure—One Lecture, . Dr. Pearce Bailey.

Pathological Anatomy—Two Lectures and Demonstrations,

Dr. Eugene Hodenpyl.

Massage, Theoretical and Practical—Twelve Lessons (in two sections),

Miss Gudrun Holm.

GRADUATES, CLASS OF 1897.

Estelle D. Easterly, now Mrs. W. S. Garnsey, at home, Gloversville, N. Y.

Carbetta Jones, private nurse, New York City.

Minnie G. Watts, private nurse, New York City.

Louise V. Hartmann, private nurse, New York City.

Helen S. Barker, now Mrs. E. P. Williams, at home, Easton, Pa.

Nellie Lee, private nurse, New York City.

Naomi L. Carmiencke, now Mrs. Williams, at home.

Anna L. Thompson, private nurse, Stamford Conn.

Emma J. Kosters, Supt. of Nurses, Brooklyn Maternity Hospital, Brooklyn, N. Y.

Winnifred M. Cunningham, at home, Toronto, Canada.

Annie M. George, private nurse, New York City.

Vauda Hack, private nurse, New York City.

GRADUATES, CLASS OF 1898.

Olive J. Brown, operating-room nurse, Lakeside Hospital, Cleveland, Ohio.

Elizabeth M. Burns, private nurse, New York City.

Mary C. Barker, at home, Ashville, N. C.

Margaret Corbet, at home, Owen Sound, Canada

Mildred M. Conklin, private nurse, New York City.

Ella Lawrence, private nurse, New York City.

Maggie Mathews, private nurse, Atlanta, Georgia.

Laura R. Wilson, private nurse, Dawson City, Y. T.

Isabel Robinson, private nurse, Brooklyn, N. Y.

Margaret A. Tuttle, private nurse, New York City.

Mary B. Thompson, private nurse, New York City.

GRADUATES, CLASS OF 1899.

Julia M. Bowne, private nurse, New York City.

Eleanor Peregrine, private nurse, New York City.

Charlotte S. Ring, private nurse, New York City.

Marguerite Orr, private nurse, New York City.
Clara Statesir, private nurse, New York City.
Lissa M. Davey, at home, Whitby, Ontario.
Eliza B. Cheyne, private nurse, New York City.
Mabel W. Fanning, private nurse, New York City.
Isabel Freeland, private nurse, New York City.

GRADUATES, CLASS OF 1900.

Anna C. Benham, private nurse, New York City.
Katherine I. Tierney, private nurse, New York City.
Margaret Campbell, supervising night nurse, Roosevelt Hospital, New York City.
Katherine C. Thompson, private nurse, New York City.
Mary J. Moore, private nurse, New York City.
Lillie M. Hoag, private nurse, New York City.
Ethel A. Orr, at home, Schenectady, N. Y.
Elizabeth Clark, private nurse, New York City.
Mayme Francis, private nurse, New York City.
Harriette G. McConnell, private nurse, New York City.
Eleanor H. Downing, deceased.
Emma A. Foster, private nurse, New York City.
Nona Charles, private nurse, New York City.

GRADUATES, CLASS OF 1901.

Elizabeth Thompson, now Mrs. S. W. Hastings, Los Angeles, California.
Fanny I. Bolster, private nurse, New York City.
Katherine R. Simmons, private nurse, New Haven, Conn.
Jessie B. Downing, private nurse, New York City.
Harriet S. Douglas, private nurse, New York City.
Mae F. Chamberlain, private nurse, New York City.
Edith L. Donoghue, private nurse, New York City.
Caroline M. Duckworth, private nurse, at home, Ilion, N. Y.
Margaret I. Merry, private nurse, New York City.

FORM OF GENERAL DEVISE.
